What's New In Power Web2Pic?

=====
=====
Power Web2Pic is a useful website conversion tool as well as a rapid Multi-page browser. The application allows you to save web-pages to your PC as gif, jpg, png or bmp. You only need to enter a URL into the Address box, and click the 'Convert' button, the selected webpages will be converted to images as those formats. Power Web2Pic Features: =====
===== * Works with all Internet web browsers, including Chrome, Firefox, Opera, Safari, Internet Explorer, etc. * Supports to convert a URL in the browser to multiple images (4 gif, jpg, png or bmp formats). * You can select between the following conversion formats: GIF, JPG, PNG, BMP. * You can also specify the conversion size: _Small, Medium, Huge or the Original size. * You can also specify to automatically resize the images that are compressed by using compression format images, like GIF, JPG, PNG, BMP and TIF. * You can also display images thumbnails, or specify the default image size: _4 MB, 6 MB, 8 MB, 10 MB or 12 MB. * You can customize the output file name and path: _Output file name or path, the file name of the different conversion formats are: jpg, gif, png, bmp, etc. * Adjusting the current web page window in two ways: - Set the current page to your Windows desktop. - Or the PDF document into a web page: - You can specify to go directly to a web page, the path of the web page is also stored in the conversion - You can also specify the web page window mode, in the destination web page. - The output image size can be changed. * The program only uses your computer's memory and disk space, and does not pollute your hard disk with a lot of temporary files. * You can review your conversion image that was stored in different windows during your conversion. * You can create a shortcut to the converted URL. * This is a free and safe download if you are provided with a free download, we also provide you with a free trial to let you check how to use the software before you buy it. * You can then uninstall the trial version after the trial period.

System Requirements:

Windows XP/Vista (64bit) 1 GHz processor 1 GB of RAM (2GB recommended) 20 GB of free disk space DirectX 9.0 or later How to install WinRed and How to Use it: Install WinRed in your computer. Turn off your computer. Insert the WinRed CD/DVD into your computer's CD/DVD drive. Install the game in your computer and run it. Now, you can enjoy WinRed in your computer.
