SQL statements in your browser or export into MySQL, PostgreSQL, MariaDB, and other databases. SQL editor Allows you to write SQL queries. CSV extractor Allows you to extract data from the database and load to the SQL editor. Scheduler Allows you to execute SQL scripts in the background. Tracer Allows you to trace queries with SQL tracing mode. Deployment Allows you to deploy database changes directly from SQL Editor. Features The tool can be used in any combination; you can combine it with a standalone MySQL database management tool such as Workbench, or a SQL client such as Toad for MySQL. Usages The program allows easy copying of any SQL statements from MySQL database (for example: statements from a web application or MySQL database created by an application) into SQL Editor. The main advantage of this combination is reduced development and maintenance time. Examples Copy SQL statements from a web application: CREATE TABLE table1(id INT, data TEXT, PRIMARY KEY(id)); SELECT * FROM table1 WHERE id = 1; See also Comparison of SQL editors References External links Official website Category:Database management systems Category:SQL editors I Wish I Knew a Secret "I Wish I Knew a Secret" is a song recorded by Canadian country music artist Jann Arden. It was released in November 2012 as the first single from her fifth studio album, Love and Other Food for Thought. The song was written by Jess Rowland, and produced by Rowland and Jeff Barry. The song reached number one on the Canadian Hot 100 and spent seven weeks at the top of the Canadian Country chart, becoming Arden's first number-one song in her home country.
